

MEET THE

Seguin Family

“This is the home my children will go to college from.”

-Alexis Seguin

Alexis and her two children, Jersey and Easton, have been renting a home located in prime commercial real estate. Upon finding out the owner intends to sell when he gets a “good offer” she was also informed that he would not make any repairs to the house. They have been living month to month not knowing if anything major would need repair or if they would simply have to find a new place to live. With her now school aged daughter and

son sharing a room, and a leaky basement that is virtually unusable, she decided to apply for homeownership through Habitat St. Charles.

“I was beyond excited to have the opportunity to partner with Habitat!” she said after she was told that she had been selected to partner for homeownership. “Not only a place to call home for my children and I, but to be able to serve and volunteer. I’ll forever remember that feeling of pure excitement and relief, and seeing my kids’ shocked faces! God is good, all the time.” Alexis will perform 350 hours of sweat equity toward the purchase of her home, as well as pay an affordable mortgage.

Jersey is looking forward to life in their new home, “I’m excited to be a part of a new community and make friends with the neighbors that I can play with and grow up with.” Easton also has his dreams, “I’m most excited about maybe getting a little swimming pool we can play in, and a yard to play games.” They are both very excited about having their own rooms! Alexis is looking forward to personalizing the home: painting and decorating. This is their home, their way.

Alexis feels fortunate to have this opportunity to partner with Habitat, “Without Habitat for Humanity, my dream of homeownership...probably would have never been a reality. Habitat is a blessing and an answered prayer. I’m so thankful for the opportunity to partner with such an incredible organization. Habitat is providing a lifelong opportunity for a family who wouldn’t have had it without you.” To our volunteers, Alexis says, “Your time matters, you matter. There would be no Habitat for Humanity without your time and generosity.”
